

The screenshot displays a web application interface for generating a store issue against a requisition. The browser window at the top shows the URL <http://imis.baba.co.in/software/html5.html>. The application has a menu bar with options: File, Edit, View, Favorites, Tools, Help. The header section includes a title bar with the text "O GENERATE STORE ISSUE AGAINST REQUISITION - STR1050 - V3.12.005". Below the header, there is a section for user and company information: User: D00341, Company: 64, and the text "DS DRINKS AND BEVERAGES PRIVATE LIMITED (UNIT-II) AUTO GENERATE STORE ISSUE AGAINST REQUISITION". The main table displays requisition details with columns: Requisition No, Date, Dept., Cost Centre, Trans. Date, Remarks, and Store Issued Transaction No. The table contains one row of data: Requisition No: 0005, Date: 06/06/20, Dept.: MNT, Cost Centre: A73, Trans. Date: 06/06/20, Remarks: , and Store Issued Transaction No: . Below the main table, there is a section for "Requisition Detail" with columns: SNo, Item Code, Sk Type, Req Qty, Issued Qty, Bal Qty, Issue Qty, Auto Issue Store, Ledger, Seq, and Stock Qty No. The table contains one row of data: SNo: 001, Item Code: GN-CON-NIPFLS, Sk Type: 004, Req Qty: 4.000, Issued Qty: , Bal Qty: 4.000, Issue Qty: 0.000, Auto Issue Store: 000, Ledger: 6, Seq: 0, and Stock Qty No: 004. The description of the requisition is "S.S.NIPPLE 1/2\" 6\"". The interface also includes a sidebar with a "Forms" section showing an error message: "Internal Error: Store Issued is not Generated, Plz Check the Stock In Auto issued Store". The error message is displayed in a red box with a close button. The bottom of the interface shows the status bar with the text "Record: 1/1" and "(<ESC> <DBG>)".
